

POST OPERATIVE CARE

WOUND CARE OF SKIN GRAFTS WITH BOLSTER ATTACHED

If you have a skin graft, it may be held in place by a lubricated cotton wool ball bolster which is stitched in place over the graft. In order to obtain the best possible results following surgery, please follow these instructions.

- Keep bolster dry until its removal at the next appointment. **DO NOT** try and remove the bolster dressing covering it.

If you have any concerns, please contact Dr Banky on 1300 418 481

NB. In the case of an emergency, or if unable to make contact, please seek advice from your GP or nearest hospital emergency department.
